

SANY[®]

HZS60G BATCHING PLANT

HZS60G 混凝土搅拌站

Advanced software and Control System

Sany batching plants are operated with Advanced software with real time simulation of operations on screen, operator friendly and easy to use, providing unlimited storage of mix designs and production data storage from present to historical;

Sany Control System can provide multiple operating language, not only Chinese and English, but also Russia, Portuguese, Spanish, French and Arabic.

Less Floor Space

HZS60G have a optimized structure and layout, it covers only 180 m²

Twin Shaft Mixing Technology

Sany Twin Shaft mixer produces homogeneous mix with its 3D mixing technology and assuring complete concrete discharge. Highly resistant hardened liners in mixer and cone gives higher life cycle and low maintenance cost.

High Cost Performance and Using Convenience

Optimized Structure, not only reduce the cost, but also remain the product capacity;
Inline arrangement and two-way drive in and out

Safe Operation & Maintenance

Sany is adhered to provide a safe machine considering operation and maintenance, and providing spacious, wider and safe inspection space on mixer platform, second level structure is equipped with a surround maintenance platform plus separate working platform is available for skip drive mechanism.

SPECIFICATIONS

No.1	型号 Model	HZS60G
1	理论生产率 Theoretical Productivity(m ³ /h)	60
2	提升电机功率 Motor Power(kW)	2×18.5
3	搅拌机公称容量 Nominal Capacity of Mixer(L)	1000
4	骨料最大尺寸 Max. Aggregate Size(mm)	60
5	粉罐容量 (标配) Silo Capacity (t) (Standard)	2×50
6	配料站容量 Aggregate Capacity(m ³)	3×10
7	骨料种类 Category of Aggregate	3
8	卸料高度 Discharging Height(m)	4.2
9	装机功率 Rated Power(kW)	87
10	骨料计量范围及精度 Aggregate Metering Accuracy	(600-2000)±2%
11	水泥计量范围及精度 Cement Metering Accuracy	(200-1000)±1%
12	粉煤灰计量范围及精度 Fly-ash Metering Accuracy	/
13	水计量范围及精度 Water Metering Accuracy	(80-300)±1%
14	外加剂计量范围及精度 Additive Metering Accuracy	(8-20)±1%
15	提升方式 Feeding Mode	Skip
17	参考重量 Reference Weight(t)	35

GLOBAL CASES

GLOBAL SERVICE

SANY's business covers more than 200 countries and regions across the world and also they are all provided with professional service personnel and secondary warehouses, among which the four overseas plants in America, India, Germany and Brazil have service center and central warehouse to provide all-round support in services and spare parts

CONCRETE MACHINERY DIVISION

Concrete Mixers

Truck-mounted Concrete Pumps

Placing Booms

CONCRETE BATCHING PLANTS

Stationary Concrete Pumps

SANY is the Global leader in concrete machinery manufacturing. SANY offers full range of concrete machinery from concrete batching plants, truck mixers, Stationary Concrete Pumps, Truck-mounted Concrete Pumps, Placing Booms etc. SANY concrete machinery offers reliable performance, wide adaptability, easy operation, high efficiency and lower maintenance cost.
